

# Passionate Purchaser & Planning

**Do you like to make a difference in our Supply Chain and minimize the cost in both purchasing and production for our customers, then we've got the right job for you.**

## Your primary tasks

You will report to our Global Supply Chain Manager and become part of a dedicated team, who has the overall responsibility to make sure, we have got all the right components, to the right price, so that we are able to produce all our orders in time. In your role, as a Purchaser, you will have the overall responsibility to make sure, we drive the purchasing for the customer's orders.

Therefore, we expect that you...

- Act both strategic and operational within your domain.
- Process, select and release purchase orders according to the Material Requirement Plan.
- Follow-up of order confirmation from supplier.
- Daily purchasing for your own customers and follow up on deliveries.
- Production planning, daily release production order.
- Capacity planning for bottlenecks.
- Work closely and collaborate with our sales organisation, as well as Product Engineering and Global Sourcing to support the best solution for our customers.
- Work passionately and with great commitment to making a difference for our customers.

## You and your competencies

You are proactive, and have an excellent ability to influence others, you are outgoing and it comes natural to you to understand complex processes. You are great at keeping a sense of perspective, result oriented and can work independently as well as in teams. You are experienced within Axapta and have a solid understanding of Supply Chain in a customer driven setup.

Besides from that you...

- have excellent skills when it comes to planning and prioritizing.
- are used to work with KPI's
- have knowledge about production of electronics/EMS and a complex supply chain
- have analytical skills and able to put it into practical use
- communicate effortlessly in English
- preferable have a degree in Value Chain Management or similar education

## How do you apply?

## About BB Electronics

*BB Electronics A/S, established in 1975, is one of Scandinavia's leading service companies within electronics production. We offer services within design for manufacturing, sourcing, production, test, box build and system integration, distribution, and after sales services. It is our vision to be Northern Europe's leading EMS supplier of products within batch production of electronics. We produce for companies within a long range of businesses, e.g. industry, telecommunication, IT, medical, transportation and a number of niche industries. We employ around 500 employees, and our administrative head quarter is located in Horsens, Denmark with production facilities in both Suzhou, China and Horsens, Denmark.*
