

Technical Project Manager

Would it be of your interest to manage electro-mechanical turnkey assembly projects which involves automation, design optimization in PCBA & Mechanical? Do you thrive working in a global environment? Then you might be our new Technical Project Manager!

With reference to our VP of Manufacturing you will be responsible for managing customer and internal projects with the help of cross functional teams.

As a Project Manager you will perform the following tasks:

- Be the single point of contact between company and customers during the execution of the projects.
 - Manage cross functional team to execute the projects as per the timeline with necessary escalations.
 - Controlling the project schedule by examining milestones, key dates and the critical path throughout the project development lifecycle.
 - Deal with the project risk, assess them in advance and seek proper support within the organization.
 - Help customers optimize the design in the early stage of the project in close coordination with the customer and the Customer Focus Team.
 - Ensure that the project is run within the estimated budget and ensure to track and cover the cost for non-budgeted activities.
 - Schedule periodic meetings with internal and external stakeholders and ensure that project report is made available for the management review.
- Have 10+ years' work experience in handling NPI, transfer projects between sites, project management in electronics manufacturing preferably in leading EMS/OEM.
 - Have the necessary technical understanding and capabilities of electronic manufacturing including mechanical design and manufacturing process.
 - Can facilitate seamless communications and workflow, not only within the team, but also between the company and customer.
 - Can analyze the requirements/vision of the project and make decisions commercially and technically.
 - Have good interpersonal skills in order to manage and drive cross functional team.
 - Can communicate effortlessly in English

Expected travel activity: 30-40 days per year
